

Venusian flying saucer or 'Scout Ship' photographed by George Adamski at 9:10 am December 13, 1952 at Palomar Gardens, California through his six-inch telescope

Where do flying saucers come from?

Until recently, the United States government has denied the existence of flying saucers, claiming they are sightings of the planet Venus, or swamp gas. But with Dr. Steven Greer's Disclosure Project finally taking effect on Congress, our representatives are starting to ask the hard questions about UAPs, Unidentified Aerial Phenomena, which is the word they are now using for UFO's or flying saucers. NASA still maintains that they have not detected any sign of life in outer space or on any of the other planets or moons in our solar system. But that is because they ignore the testimony of Contactees and Expert Witnesses. Since at least the 1930's and 1940's persons have come forward testifying that they have been contacted by Aliens, persons from other worlds, that have come to Earth in spacecraft commonly called flying saucers.

Dr. Steven Greer, a retired emergency medical doctor, in his youth had sightings of flying saucers, and once when he was very sick, had an out-of-the body experience where he was taken far above the Earth and heard Aliens telling him that they come in peace to help us, the people of Earth. Yet our military has shot at the alien spacecraft and downed a bunch of them and are attempting to reverse engineer their technology to figure out how better to fight them. Dr. Greer points out that such a policy is insanity, because with the advanced technology the Aliens have, they could have taken over all the countries in the world and even destroyed us if

they had wanted to. The fact that they have never fought back when fired upon is ample testament to their peaceful nature. Several expert witnesses that Dr. Greer has obtained the video testimony of, have testified that the Aliens and their spacecraft have even prevented nuclear war on our planet.

I highly recommend viewing Dr. Steven Greer's expert witnesses that his constitutional lawyer has been able to remove their secrecy oaths and have been willing to give their video testimonies as evidence that UFO's exist and they have had personal experience in sightings, even close encounters. You can view the expert witness testimony of some of them at: Witness Testimony - Dr. Steven Greer ([siriusdisclosure.com](http://siriusdisclosure.com))

For example, Captain Robert Salas gives his testimony and has even testified before Congress that while he was managing a nuclear missile silo when on active duty, a UFO showed up at his underground site and placed his missiles in a No-Go status. They did the same thing at the same time at a missile silo in the next state. He testifies that he believes they did this to show that they can prevent us from having a nuclear launch in order to have a nuclear war.

Another expert witness on that same web page of Dr. Greer's website, is Professor Robert Jacobs, who was an Air Force photographer. He filmed the launch of a missile in California up over the Pacific with a dummy nuclear warhead. A week or so later, his commander called him in to watch the film that was developed. They watched as the missile climbed into space and then a flying saucer swooped down out of space and shot the missile warhead from three different positions causing the warhead to tumble out of space. So clearly, the Aliens have the ability to intercept and destroy our nuclear missiles. It is a fact that the number one sighting of UAPs are at bases where nuclear missiles are stored. The Alien spacecraft that was downed by our military with high potency radar at Roswell, New Mexico in 1947 was because it was monitoring the nuclear bombs stored there at Roswell, which at that time was the only air squadron in the world that had nuclear weapons.

Col. Philip Corso, in his book, *The Day After Roswell*, saw one of the alien bodies that was shipped to an airbase in Ohio. He was later given charge of pieces of the craft to put the technology out into American industry. He testified that American industry has successfully back engineered several technologies from the crashed alien craft from Roswell, including fiber optics, night vision, preservation of food, and integrated circuits which made our modern day computer technology possible. Col. Corso also had a live contact. At Roswell, one of the UAP's landed and Col. Corso and another military man went out to check it out. They met one of the Aliens at the landing site and the Alien talked to Col. Corso about their wish that we stop using nuclear weapons, and Col. Corso asked him, "What is in it for me?" And the Alien responded, "A New World if you are willing to have it."

Another Contactee was Reinhold Schmidt, who was a grain buyer for a California company. In 1957, while in Nebraska looking for grain buying deals, he came upon a landed spaceship. It was cylindrical with rounded ends. Upon approaching it, a door opened and out came two men, who shined a laser-type beam on Schmidt which momentarily paralyzed him. They asked him if he had any arms. He replied no, but they frisked him nevertheless. Then they invited him aboard their craft. They needed to do some kind of repair on their craft. Schmidt said they spoke to

him in English, but had a German accent. They spoke between themselves in what he recognized as High German. Schmidt was allowed to examine the craft. He noticed some television type panels attached to some kind of controls. He met a couple of women pilots on board who were also friendly. He said they said they came from Saturn, but from what they told him, and their German accent, I believe they really were from Our Hollow Earth, probably from some of the German refugees that escaped to Our Hollow Earth after World War II. He said that on each end of their craft were 12 foot in diameter propellers that were said to control gravity. He said the outside looked like the craft had a silvery metallic skin, but from inside he could see out in all directions. Even the grass beneath the craft was visible. Presently, the men said they had finished their repair job and that he had to leave. From outside he saw the craft rise up to above the tree tops then shot off horizontally with a brilliant flash of light. He said the craft was silent except for a hum when it started to rise from the ground.

Reinhold reported the sighting to the local police in Kearny, Nebraska, who accompanied him to the site where they saw the hydraulic landing gear prints on the ground, and some green oily substance left behind. The news media was notified and hundreds of news people showed up. Soon the air force people showed up and tried to get him to change his story. Soon they wanted him to go to a mental hospital in a nearby city and run tests on him. Finally, after three days his boss from California found him and got him released from the hospital. Several days later, the spacecraft returned and took him for a ride on their craft.

Reinhold says he was unable to feel any inertial forces when the craft moved. Each time the craft approached his car, it would always stop his engine. The craft's magnetic field would pop the lids off his battery and run it dry. When the craft would leave, he would be able to restart his car's engine. Reinhold was taken on several rides of this spacecraft. One trip was to Our Hollow Earth. They flew up over the Arctic and through a giant hole in the Arctic Ocean. While in Our Hollow Earth he saw the Inner Sun and was taken over many of the Hollow Earth cities, but they never landed. He was brought back through the North Polar Opening to the Bakersfield, California quarry where they had picked him up several days earlier. Another trip he was taken to Russia and he was shown where the Aliens had returned a nuclear missile that Russia had launched and turned it back to explode on their own country in a sparsely inhabited area, to teach the Russians a lesson: that any country that would shoot a nuclear missile at another country will have it returned back on themselves by the Aliens and have it explode on their own country. Russia invited leaders of other countries to witness the devastated area where the bomb had exploded destroying everything.

The Air Force had a CIA-paid astronomer, Carl Sagan, testify at a trial they brought against Reinhold Schmidt claiming he had defrauded a widow lady out of thousands of dollars, and got him committed to a California state penitentiary for the rest of his life. Shortly before he died, they let him out to go home to Nebraska where he was originally from.

Another Contactee was Howard Menger that we met at the 1990 UFO Conference in Phoenix, Arizona. He had on display a model of a flying saucer that he helped the U.S. government build back in the early 1960's that actually flew. For helping them,

they gave him \$1,500 for the rest of his life, but after about a year, the checks stopped coming. He went back to Colorado Springs where he had helped them build this flying saucer that he personally flew after it was built, and all the buildings were gone. The project had gone black and underground into the corporate world with the American secret government in charge. Dr. Steven Greer has determined that these deep black projects have no constitutionally legal basis for their existence and that they are keeping secret from we, the people, the alien technology, the free energy devices and antigravity flying saucer technology that they have reverse engineered from alien UAPs which they have downed all over the world.

Howard Menger's story began when he was about 8 years old on his father's farm in Virginia. He and his brother were playing out in the woods on the farm, when his brother wanted to go back home. But Howard wanted to go further out into the woods. He came into a clearing where a flying saucer had landed and a most beautiful woman he had ever seen was sitting on a large rock. She spoke to him by name and said she was from the planet Venus. She said that they had come to Earth to help us, and wanted to know if he would help them when he grew up. Howard agreed, and when he was in his twenties, they contacted him again. He would help them get jobs and learn our customs. One day he asked them if they would take him to the Moon, which they did. In his book is a photo of the Moon he took through a porthole of their flying saucer. They took him to the far side of the Moon, the side we never see from Earth, to an Alien base. It had towers and domes and buildings. He was even taken on a train ride over the Moon landscape and says at one point they stopped to look at a crashed rocket where the pilot had gotten out and died on the surface of the Moon. Howard said that he met people from all the planets in our solar system at this alien base on the far side of the Moon.

NASA claims they have not detected any life in space or on any of the planets in our solar system. But if they are all hollow, as the evidence strongly indicates, then those people that Howard Menger met at the alien base on the far side of the Moon could all be living on the interior worlds of all the planets in our solar system, just like they told Howard. I highly suspect that there literally exists a United Federation of Planets, and that our civilization is the only one that does not belong to it because of the war mongering activity of our misguided leaders.

One of Dr. Greer's expert witnesses testifies that at one point in our attempt to go to the Moon, that the United States sent a nuclear missile to explode on the Moon. It was intercepted and destroyed by the Aliens. What insanity!

When we finally did make it to the Moon, our astronauts were sworn to secrecy that they saw Aliens on the Moon. The Astronauts used secret channels to communicate back to Houston that they spotted Aliens on the far side of a close-by crater on the Moon watching them.

When the last Apollo mission to the Moon, Apollo 17, was going around the far side of the Moon on its last orbit around the Moon before heading back to Earth, it was night time and the Alien base lit up with bright lights and a voice came over their radio, "You people of Earth are NOT welcome here on the Moon! Go back to Earth and NEVER return!"

Soon after the return of Apollo 17, NASA shut down the Apollo missions to the Moon letting go thousands of workers. Years later, when Astronaut Neil Armstrong was teaching at a University, he spoke at a graduation telling the graduates that we had been warned off the moon by the Aliens. That is why we have not gone back to the Moon. At Cape Canaveral and the Kennedy Space Center the last Apollo rocket is still on display, brand new, never used.

Another Contactee was Reverend Frank Stranges from California. He had been given a photograph by a retired Air Force photographer of a man from Venus named Valiant Thor. The occasion was a meeting in the backyard of Howard Menger in Virginia. Dr. Stranges had a very intense interest in UFO's and with this photograph he would go the UFO conferences around the country. At one conference in Washington D.C., a woman from the Pentagon approached him after his presentation and asked him if he would like to meet Valiant Thor. Of course he would. So the next morning this lady took him to the Pentagon and told him to go into this certain room. He entered and presently a man approached him calling him by name, "Dr. Frank Stranges, I am Valiant Thor from Venus." They had a nice conversation for about 30 minutes. Valiant Thor was dressed in human clothes because as he explained, the Pentagon was running some tests on his spacesuit. Presently, they returned his spacesuit with their diagnosis. After running all their tests, they declared that his spacesuit was indestructible. A laser could not penetrate it, neither could a diamond-bit drill, nor could any acid affect it. It had no buttons. When Valiant Thor ran his fingers down the front of the suit, it opened up so he could get in it. It weighed only a few ounces.

Valiant Thor related that he had arrived about three years before in his spacecraft. He landed it near the Pentagon and asked two policemen to take him to their President. Valiant Thor met with President Eisenhower and Vice President Nixon in the Oval Office and offered them a book of instructions on how the people of Venus could help the people of Earth eliminate all poverty, sickness and even death. After reviewing the book with his advisors for a year, President Eisenhower returned the book to Valiant Thor and said that we could not accept his offer because his advisors said it would destroy our economy.

Later Valiant Thor contacted Dr. Stranges again and invited him aboard his flying saucer craft. And even to this day, after Dr. Stranges death, his wife continues to provide messages from Valiant Thor in their newsletter. On their website, is a book, written by Dr. Frank Stranges, called Stranger at the Pentagon, and another called My Friend Beyond Earth in which he describes his interactions with this amazing man from Venus. He looked every bit like us humans, except he had no finger prints. He also had powers we don't have, such as the Pentagon's inability to detain him. He had the ability to come and go as he wished. When Frank Stranges was going out in the desert to see Valiant Thor's flying saucer, three men in black forced him off the road in their black car. They got out of their car and were coming to his car, when suddenly Valiant Thor showed up and with a wave of his hand, the three Men in Black disappeared. Valiant Thor then said, "Come with me." He reached into the trunk of Dr. Stranges car and retrieved Stranges' briefcase without even opening the trunk. They walked out into the desert where Thor's flying saucer ship was cloaked with invisibility.

In Dr. Stranges' book, *My Friend Beyond Earth*, he records that Valiant Thor told him that Venus his home planet is hollow just like our Earth is hollow. In fact, all the planets, moons and even the Sun are hollow bodies, and people, do, in fact, live in their interiors. It is my opinion, that there does exist a United Federation of Planets in our solar system, and our civilization of Earth is the only planet that does not belong to it. The people of other planets consider us as barbarians, war mongers and dangerous, and have sent their spacecraft to prevent us from blowing up the planet with nuclear weapons or exporting our wars to other planets.

One of Dr. Steven Greer's expert witnesses testified on video that at one point in the Space Race, that the United States sent a nuclear missile to explode on the Moon. But the Aliens intercepted it and destroyed it. No wonder they warned us off the Moon! One United States general concluded after every attempt that has been made to weaponize space has failed that, "the Aliens have us under quarantine." Dr. Greer says that until we become a peaceful people, and stop knocking the Alien's spacecraft out of our skies and attempting to reverse engineer their technology so as to better to fight them, then the Aliens are hesitant to openly come to Earth to help us. In his recent documentary, *The Lost Century*, which you can watch on Amazon Prime, Dr. Greer says that gravity control was discovered in 1954 and free energy technology has been available to benefit mankind since at least the days of Nicola Tesla, but every time an inventor comes out with a technology such as free energy generators, or anti-gravity craft, they are poisoned, persecuted and killed and their inventions stolen and kept hidden from the public. He is working with Congress to investigate these rouge deep black projects of the secret government to bring out these technologies that we, the people, have paid for with our tax dollars and have been denied the benefits of them. If these technologies had been given to us like fiber optics, night vision, and integrated circuits, we all could be powering our houses and cars with free energy and flying around in flying cars or craft today. We could even be visiting the friendly people of other worlds where they live in their hollow interiors.
